

Hot, just the way you like it

Coffee and hot beverage dispensers with smart interfaces, a stylish design and advanced technology for connected, sustainable and quality breaks which offer flexibility and performance.

Retail tech for the coffee break

Retail tech stems from the integration of smart systems, software and hardware, which work in synergy to offer an advanced experience to both consumers and business users.

HOT SOLUTION

Technology and quality in every cup

- 01 **PREMIUM QUALITY AND A WIDE RANGE OF PRODUCTS**
A flexible offering, technologies for the perfect espresso and excellent build quality with professional components for reliable performance over time.
- 02 **EVOLVED USER EXPERIENCE**
Modular solutions, intuitive interfaces and advanced technology for a personalised, simple and engaging purchase experience in every context.
- 03 **SMART MANAGEMENT & OPTIMISED MAINTENANCE**
Advanced connectivity, simplified maintenance and smart control for efficient, responsive and always-connected performance management.

Technology that simplifies, connects and transforms

A smart ecosystem that combines hardware and software to simplify management, enhance the user experience and optimise performance.

- CONNECTIVITY & WI-FI
- DIGITAL PAYMENTS
- FAS CLOUD +
- ESPRESSO SYSTEM
- VARIABLE GRINDING
