FAS PRO
Snack machines

- Linear design for easy cleaning;
- Patented, energy-saving, slide-in/slide-out refrigeration unit that can be replaced quickly. Natural CO_2 gas to reduce the greenhouse gas effect to a minimum, with GWP = 1;
- Patented lateral refrigeration ventilation for energy savings, condensation and optimal homogenization of temperatures;
- 32-bit electronics with USB 2.0 HOST;
- Power Led illumination with Energy Saving;
- Programming, cloning, and Audit functions using a standard USB pen drive;
- Larger interior dimensions for above-average management of voluminous products:
  - Increased space between glass and drawer compared to standard version;
  - Product drop space maximised;
  - The front panel in glass has intelligent LED lighting to highlight product availability after distribution;
  - Larger door is reinforced and customizable.
- Drawer Display (depending on configuration);
- Rielda RS1 Lock;
- Easy Click System: for configuring the machine quickly and easily without any need for technical instruments;
- anti-vandal coin return (optional);
- Interactive user interface with 10.1″ TABLET;
- Integrated WIFI connection;
- Configured for dongle key internet connection;
- Integrated remote management via Fas Cloud+.
